

## BART PALISI BIOGRAPHICAL SKETCH

I have been painting since 1964, and have been a member of Southern California Artists since the early 1990's. I have had several single artist or featured artist shows in Orange County and Los Angeles County and have exhibited numerous times since 1964. I was a member of Orange County Center of Contemporary Art for 12 years, to the Whittier Art Association, and the La Habra Art Association.

My original and continuing art interests involve painting urban landscapes and nature (particularly desert scenes, cacti and other succulents). My paintings are abstract and perhaps absurdist. I combine many different materials with acrylic paint, including cloth, photos, sand, wood, ceramics, metals and almost anything else. I like bright vivid colors and make fairly large paintings, usually on thin plywood.
